Central Filling Advantages

Hub-And-Spoke Efficiency

A RoboPharma Central Filling build-out efficiently fills hundreds up to thousands of prescriptions per day at a remote location in a hub-and-spoke model, which has proven cost advantages and customer service advantages over traditional Rx filling.

Why a RoboPharma Central Filling Model Is Superior	Traditional Pharmacy Model	RoboPharma Hub-and-Spoke Model	RoboPharma Benefits
Stock Management	Each pharmacy keeps 100% inventory onsite	Central fill pharmacy manages >70% inventory	Space savings, inventory management, greater data & reporting
Prescription Preparation	Each pharmacy fulfills 100% of prescriptions using onsite inventory	Central fill pharmacy fills all repeat prescriptions (70% of total orders); pharmacies only fill acute & walk-in prescriptions	Labor reduction, quality improvement, exceptional accuracy
Prescription Pick-Up	Patients collect filled orders from pharmacy	Patients collect filled orders from pharmacy	Improved customer satisfaction, less wait time, less clutter

Analysis: Top 1,200 items account for 80% of all prescriptions
